IF YOU AREN'T SUGGESTING FLOOD INSURANCE, MAYBE YOU SHOULD SUGGEST A LOT OF THESE.

They could be the only thing between your customers and the raging waters of a flood.

Won't happen? Don't be too sure.

Fact is, floods can happen anywhere. In the past few years, floods have hit all 50 states. And nearly one-fourth of all flood insurance claims came from areas not considered high risk.

What's worse, many homeowners think they're covered for flood damage by their homeowners' policy.

Unfortunately, they aren't. And if your customer's home or business is damaged by a flood, your investment could be at risk.

But you can help protect your customers and your security by recommending National Flood Insurance even when it's not required. National Flood Insurance is backed by the government and, depending on location and coverage, adds only a few hundred dollars a year to most home loan and mortgage costs.

To find out more about the National Flood Insurance Program, call the number below. And help your customers get the protection they really need.
